

Consent for Websites and Online Applications

As part of its educational mission, Worth School District 127 staff may encourage students to use websites and online applications that collect, use, and/or disclose personal information. The school's use of student information is solely for education purposes. We are required to receive permission from a parent or guardian before the student can participate in such an activity. **By agreeing below, you are granting permission for your child to participate in such activities under the supervision of District staff.** Your child will not be allowed to participate in such activities until this form is returned to the District. You may also request from the website itself the specific information on record for your child. By signing below, you agree to hold harmless the District and its Board members, employees, and agents for any harm caused by your child's use of online resources. You reserve the right to request that any of your child's personal information on record be deleted and that permission to use a website be terminated. This signed consent form will be in effect as long as your child is in attendance in a District 127 school, unless written notification to the contrary is received by the principal. Operators of websites are required to get verifiable parental consent before collecting personal information. In many cases, schools collect verifiable consent on behalf of the operators in order to comply with the law and use the services. The list of websites and apps that we use in the district along with links to their privacy policies will be kept up to date at this address: worthschools.org/parents/sitelist.

Yes, I agree to these terms. My child will be allowed to participate.

No, I do not agree to these terms. My child will not be allowed to participate.

Parent or Guardian name typed for use as digital signature: _____
