School District Prerogatives

The Board of Education or its delegated authority may, within the bounds of state and federal statues, expand or restrict any of the rights or responsibilities included in this handbook if an emergency or an unusual situation warrants such action. School authorities may at times set such other rules and procedures as necessary to maintain orderly management of the educational program and school activities in general.

Classroom teachers may set such procedural rules as necessary for the efficient management of classroom functions.
Worth School District 127 is dedicated to educating the whole child for life-long learning. This is achieved through partnership of home, school and community, with each working in collaboration with the others for the benefit of students. Based on this premise, the intellectual, physical, social and moral growth of students must be maximized through education which meets the need of diverse learners and enables them to meet the challenges of an ever-changing world.
School District Overview

Worth School District 127 serves the Village of Worth and a small section of the Village of Chicago Ridge. Residents come from both Worth and Palos Townships. The district’s attendance area covers approximately four square miles and provides instruction to approximately 1100 students in grades pre-kindergarten through eight. Students graduating from the district continue their education in either Community High School District 218 or Consolidated High School District 230 depending on their place of residence. The district maintains a close relationship with other entities within the community including, but not limited to, the Worth Library, Worth Park District, Worth Police and Fire Departments, the Village of Worth, and the Worth Athletic Association. An active Band Parents Association support the students, parents and schools.

The district has four attendance centers. Worth Junior High School serves all of the students in grades 6 through 8 and is organized with a middle school philosophy allowing individual attention to students utilizing teacher teams. Students at WJH meet in an advisory session at the beginning of the day and then proceed to classes taught by content-certified teachers. Elementary students in grades kindergarten through five attend either Worth Elementary School or Worthwoods School depending on their place of residence within the district. Generally, Harlem Avenue acts as an internal district boundary and students living west of Harlem attend Worthwoods while those living east of Harlem attend Worth Elementary. Pre-kindergarten students attend either Worth Elementary School or Worthridge School and placement is determined when students are accepted into the program.

Worth School District 127 is a proud member of the Eisenhower Cooperative. The district provides special education services both within the district and through the use of the extensive resources available through the Cooperative. As much as is possible, the staff of the district strive to provide special education instruction in a least restrictive environment.

The district schools provide a full and comprehensive curriculum in all core academic subjects and place importance on the fine arts (art and music) as well as physical fitness and wellness. The Worth Junior High School Band has achieved honors in both regional and state competitions, and the district’s athletic teams have had many successful regional events. Elementary students participate in reading clubs, math bowl, spelling bees, and scholastic competitions. Most importantly, the schools are proud to foster a sense of community spirit and service, and students are taught the importance of giving their time and effort to philanthropic purposes.

The staff of Worth School District 127 gratefully acknowledges the support and generosity of the community which they serve. The district’s curriculum is broader than that which is required for state testing and students achieve well on goals and objectives which are not tested but which are vital to their future success as students, and citizens of the United States. The staff of the district is dedicated to the growth and development of each individual child and heartily endorse their commitment to “children first”.

Absence and Tardies

We ask that parents contact their school office prior to 8:15 a.m., or 11:50 a.m. for the afternoon session, each day their child will be absent. In cases of illness involving a fever, a child should remain home until he/she has been fever-free for 24 hours. **Parents or guardians unable to call will be notified within two hours of the child’s absence.** A written note is required if contact between parent or guardian and school personnel is not made. When a student is absent from school for a full day, he/she cannot participate in athletic events or other school activities on the same day. If the illness is serious enough to require an absence of five days or more, a note from a physician is required. In cases of frequent lengthy absences, the principal shall determine if a doctor’s note is necessary. Parents should provide at least one phone number to be used for the purpose of notification of a child’s absence.

Absences shall be excused only for the following reasons: personal illness, bereavement, quarantine, family emergencies, observance of religious holidays, or written requests approved in advance by the principal or superintendent. All other absences shall be considered unexcused and interpreted as truancy. Appropriate supportive services, such as social work services and counseling, are available for truants.

Parents may request assignments if their child will be absent by calling the school office. Teachers will accept work late due to illness during a period not exceeding the length of the illness. Generally, students who are absent for a short-term period may see their teachers for assignments when they return to school.

Extended illnesses will be handled on an individual basis and homebound instructional services may be provided.

Students arriving late to school without a valid excuse will be marked tardy. Students must check in to the office first. At Worth Junior High tardies are also issued for being late to class without an excuse.

Removing students from school for vacation trips is highly discouraged. Student success is highly correlated to good student attendance.

Asbestos Notice

There is only one location of asbestos in the Worth Schools, the presence of which presents no health hazard to students, staff or visitors, i.e., the 9”x9” tile squares underneath immovable cabinets on the second and third floors of Worth Junior High.

Assessment

Students in grades 3, 4, 5, 6, 7 and 8 will take the required Illinois Standard Assessment Test (ISAT) for selected subjects in the spring. Grade levels 2 through 8 will take the Test of Cognitive Skills in the fall. The Illinois Snapshot of Early Literacy is administered to students in grades K and 1 in the fall.

Bicycle Safety

1. ONLY students in grades 4 through 8 are permitted to bring bicycles to school.
2. Bicycles must be walked on school grounds.

3. The schools are not responsible for damage or loss due to vandalism or theft.

4. Roller blades, scooters, skate shoes, and skateboards are not permitted as a means of transportation to school.

5. Bicycle helmets are highly recommended.

**Boundaries**

The Worthwoods attendance area is separated from the Worth Elementary attendance area by Harlem south of 111th Street and the railroad tracks north of 111th Street, however, parents should check with the school office, since student school assignments will be determined by District needs. Exceptions may be considered if room is available, by writing a letter to the superintendent explaining the rationale for the request.

**Bullying**

Bullying and or intimidation of others, including, but not limited to, any aggressive or negative gesture, or written, verbal, or physical act that places another student in reasonable fear of harm to his or her person or property, or that has the effect of insulting or demeaning any student in such a way as to disrupt or interfere with the school’s educational mission or the education of any student is prohibited. Bullying will most often occur when a student asserts physical or psychological power over, or is cruel to, another student. Such behavior may include but is not limited to: pushing, hitting, threatening, name-calling, or other physical, written, or verbal conduct of a belittling nature.

These bullying behaviors shall be referred to the school principal. The principal shall promptly notify the student’s parents or guardian of the referral and shall attempt to schedule a parent/teacher conference to discuss the referral and to recommend such available early intervention procedures as are deemed reasonably appropriate.

**Code of Conduct at Worth Junior High**

Self-discipline is the only permanent and valuable code of conduct. It includes the ability to understand rules and to use them independently and appropriately in various situations. Self-discipline improves self-concept, self-control, and personal effectiveness. Learning to internalize rules is the first step toward gaining self-discipline. As the student acquires this understanding, he/she achieves the solid foundation on which all other learning can be built.

The school community places particular behavioral demands on the student. It is the responsibility of the school to explain why the student’s actions must be limited and how these limits increase his/her opportunities to learn. As the student becomes aware that restrictions can be in his/her best interest in many cases, and the interest of the group, he/she attains respect for rules.

We ask that parents familiarize themselves with the junior high’s behavioral expectations which are based on core values, and reinforce the importance of appropriate school behavior. It is only through the partnership of home and school that we can best serve our students and create the orderly, safe environment essential to the educational process.

Worth Junior High students and their parent(s) will be required to sign a Code of Conduct Agreement acknowledging that they have read and understand the Code of Conduct for Worth Junior High.

**Complaint Procedure**

Students or their parents, employees or community members may file a complaint in accordance with
this grievance procedure, if they believe that the School Board, its employees or agents have violated their rights guaranteed by state or federal statutes or Board policy including:

a. Title II of the American with Disabilities Act;

b. Title IX of the Education Amendments of 1972

c. Section 504 of the Rehabilitation Act of 1973;

d. Claims of sexual harassment or discrimination under the Illinois Human Rights Act, Title VII of the Civil Rights Act of 1964 or Title IX of the Education Amendments of 1972 or Sex Equity Guidelines of the State Board of Education.

e. The misuse of funds

f. Curriculum, instructional materials, school procedures and policies or programs.

**Step 1**
The complainant should bring the issue to the individual concerned. This person knows the circumstances first hand and may be the best source to the solution.

**Step 2**
If the concern is not resolved, or the complainant feels it is inappropriate to follow Step 1, then the complainant should bring the concern to the principal.

**Step 3**
If the concern is not resolved, or it is inappropriate to follow Step 2, then the complainant should bring the concern to the superintendent.

**Step 4**
If the concern is not resolved, or it is inappropriate to follow Step 3, then the complainant should bring the concern to the School Board.

At any step of the process, the complainant may bring an advocate or advisor to any meeting or hearing. In all cases, the complainant will be given every opportunity for explanation and presentation of the facts as the complainant sees them.

It is highly recommended that any complaint be put in writing to avoid a misunderstanding of the facts presented.

Any complaint should be filed as soon as possible, ideally within five days of the cause of the complaint, and will be handled likewise in an expeditious manner. The principals are considered the complaint managers of each respective school.

**Curriculum Objections**

Parents objecting to classes where it is uncertain as to the topics to be discussed should contact the teacher first with their concerns, as in the “Complaint Procedure”. Arrangements will be considered that would respect the parent’s values and desires. Parents have the right to inspect all instructional materials and object to any testing, in which the primary purpose is to reveal information concerning political affiliations, sex, behavior, religion and attitudes.
Directory Information

The Family Educational Rights and Privacy Act (FERPA), a federal law, requires that District 127, with certain exceptions, obtain a parent’s written consent prior to the disclosure of personally identifiable information from a student’s educational records. However, District 127 may disclose appropriately designated “directory information” without written consent, unless a parent has advised the district to the contrary.

The primary purpose of directory information is to allow the district to include this type of information from a student’s education records in certain publications (honor roll or other recognition lists, graduation programs, sports activity sheets).

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without prior consent. Outside organizations include companies that publish yearbooks, for example. If you do not want the district to disclose directory information without your prior written consent, you must notify your student’s building principal in writing by September 18, 2017.

Discipline

Board of Education Policy 7:190 describes gross disobedience and misconduct. The full text of this policy can be found in the Board Policy section of this Handbook.

Dress and Grooming

In maintaining an environment that will be conducive to good learning and not disruptive, students have the right to dress and groom themselves according to their (and their parent/guardian) personal taste as long as the dress and grooming do not present health or safety hazards or disrupt the educational process.

Dress for School Success

Pants are to be worn at the waist (i.e., while standing, walking or sitting, top attire must touch bottom attire all the way around).

All undergarments are to be covered by opaque outer attire.

Shoes are to be worn in school at all times. Footwear cannot damage floor surfaces. Flip-flops and/or skate shoes are not permitted.

Clothing that displays or condones anti-social, immoral, or illegal behavior, or promotes or condones alcohol, tobacco, drugs, profanity, sex, death, gangs, Satanism/Occultism, is not permitted. “Off-color” slogans on clothing are prohibited.

Head coverings such as hats, sweatbands, bandanas, etc. may not be worn at any time in the building unless required for religious or medical reasons. This includes all indoor extra-curricular events. These items should be removed upon entering the school and should not be put on (or carried) until exiting the building at the end of the day.

Sunglasses should not be worn in the building.

Wallet chains and spiked jewelry are not permitted.

Outdoor jackets or coats of any type may not be worn or carried to class or anywhere in the building and should be stored in the student’s locker during the school day.

Skirts or shorts must extend 2 inches below the fingertips/arms hanging to the side and must ride over the hips. The same rule will apply to slits in the skirt.
For females: tops must cover shoulders and back. Spaghetti straps and oversized tank tops are not allowed.

For males: Top attire must have sleeves. Tank tops are not allowed.

Clothing that causes a distraction or is a safety concern is prohibited.

Cosmetics are not to be used in classrooms.

Hair spray or other spray personal toiletry items should not be brought to school.

**Drugs and Alcohol**

The use and/or possession of illicit drugs and alcohol is strictly prohibited. The mandatory standard of conduct of Worth students prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students on school premises or as a part of any of its activities. Disciplinary sanctions (consistent with local, state and federal laws) up to and including expulsion and referral for prosecution will be imposed on students who violate the standards of conduct. All District 127 students participate in drug and alcohol education programs. Regular classes are augmented with student assemblies and/or field trips related to establishment of a drug-free society. Information on drug and alcohol counseling and rehabilitation programs is available from the social worker.

**Early Dismissal**

Sometimes the scheduling of a doctor’s appointment makes it necessary for an early dismissal. **If this occurs, please send a written note to the school office that morning.** We require that the parent or legal guardian come to school to sign out and pick up a child. Once the school day begins, a child may not leave the school building unless authorized by the principal or designee.

**Emergency Information**

If an emergency closing of any District 127 school should become necessary, announcement to this effect will be made via the School Messenger System, which is an automated phone messaging system.

Unless there is some indication that a school building itself is in extreme danger, students shall not be dismissed prior to regular dismissal time in the event of severe weather conditions. Also, dismissal shall be delayed and staff members shall remain on duty if weather conditions are such at dismissal time that it would be unsafe for students to leave the building. Parents who feel that they must come to school for their children at these times are urged to use extreme caution. If any condition should arise during the regular school day which would necessitate evacuation of students from the building, the following will be observed: Worth Junior High to Worth Elementary, Worth Elementary to Worth Junior High and Worthwoods to St. Mark’s Church.

Each school conducts an annual tornado drill, five fire drills, two bus evacuation drills, and crisis lockdown drills.

**Enrollment**

Children who are residents of District 127 and who reach the age of five on or before September 1, may enroll in kindergarten (correspondingly, six years of age by September 1 for 1st grade). Transfer students who are residents of District 127 may enroll at any time with a birth certificate and required physical exam and immunization reports. **Proof of residency will also be required.** A certified copy of the child’s birth certificate or other reliable proof of identity and age must be provided.

A “good standing” form is required for all students transferring from another Illinois public school. If a form is not presented or faxed, the enrollment paperwork may be accepted, but the student will be
excluded until the form is produced.

State law requires physical examinations from students entering school for the first time, upon entrance into 6th grade, and students participating in athletics. A dental exam is mandatory for students in grades K, 2nd and 6th. A vision (eye) examination is required for kindergarten and students entering school for the first time. Refer to the Immunization and Physicals section of this handbook for more details.

In cases of a transfer student from within Illinois, a period of 10 school days shall be given to meet the physical exam (kindergarten and 6th grade only) and inoculations requirement or with a schedule as verified by a doctor. Transfers from outside Illinois need immunization record AND physical exam regardless of grade. If the required physical exam or immunizations are not completed, or proof thereof not submitted the student may be excluded until such time as the records are produced. Students with medical or religious objections to these requirements may be exempt upon proper verification to the principal.

Grade level assessments will be given to transfer students upon registration. Transfer students will be placed in the same grade as the prior school. Any placement will be considered probationary until sufficient rationale is available for a permanent placement.

**Equal Educational Opportunity**

No educational services or programs will be denied on the basis of sex, race, color, disability, nationality, or religion. Any complaints should be directed to the principal. The District will also make every effort to equalize resources such as staff, equipment, and supplies among the four Worth schools.

Extra-curricular activities will be open to all students. The District will provide equal athletic opportunity for members of both sexes, including the factors of programming, equipment, supplies, benefits and other services and facilities.

If any student or parent wishes to file a complaint regarding discrimination on the basis of sex, race, color, disability, nationality, or religion, please see the Complaint Procedure elsewhere in this Handbook.

**Extra-Curricular Requirements**

A yearly physical examination and statement assuring school that the student’s health status allows for active athletic participation is required to participate in any sport, including cheerleading, as is proof of medical (family or school) insurance. A player who has been absent from school and under the care of a physician shall bring a written statement from the physician approving him for participation in athletics. A player, who has been absent from school because of a minor illness or injury, but not under the care of a physician, shall bring a written statement from a parent approving the student for participation. Participation will then be at the discretion of the coach. To participate in an extra-curricular activity, a student must be passing all subject areas at the time of tryouts per most recent report card. Participation also requires the approval of the principal, coach or sponsor, and teachers. Coaches and activity sponsors may set reasonable and necessary rules, as conditions require. The South Suburban Junior High School Conference has eligibility requirements with regular checkpoints.

**Fees**

1. A general registration fee is required for each child. The general registration fee includes technology fees for K-8 and locker fees for grades 6-8. General registration fees are non-refundable.

2. *Optional* fees include band, and gym suit. An official gym suit is required of all junior high students. Please mark the gym suit with the student’s name.

3. Additional fees for participation in inter-school athletics are collected by the schools when a student participates in basketball, volleyball, track, cheerleading, and color guard. Fee information is
provided by the sponsors.

4. General registration fees are discounted if they are paid on or before August 17, 2018. An additional charge of $20.00 is added to the fees if they are paid after August 17. All fees must be paid by the start of the school year.

5. The district discourages cash as a form of payment.

6. Make checks and money orders payable to: "Worth School District 127".

7. Fee payments may either be mailed or delivered to the Administrative Center. The Fee Payment Form (available on the district web site) must accompany the payment.

8. If a family is unable to pay fees due to low income, the family may apply for a fee waiver. Assistance in completing the required paper work is available at the Administrative Center. Fees will be waived if eligibility requirements are met. Textbooks will be loaned without charge to students whose families qualify for a waiver.

Condition of Textbooks

At the end of the year, the principal will levy fines for textbooks showing excessive damage beyond normal use. If any child receives a damaged book at the beginning of the year, he or she must report the damage to the teacher within five days. Parents will be required to pay for any willful or negligent damage to school property or for loss of schoolbooks.

- Textbooks will be billed at 100% if one year old; 75% if two or three years old; 50% if four or more years old.
- Library books will be billed at actual cost.
- Replacement copies of consumable books will be billed at cost.

Free Lunch and/or Milk Fee Waivers

Free lunch and/or milk are provided to those students from families with incomes within established federal guidelines. Student fees are also waived for those eligible for free lunch and/or milk or for whom financial hardship exists. Applications are available in school offices and are filed at the Administrative Center. In the event that an application is disapproved, the applicant may request a hearing before the Registrar for a review and final decision regarding eligibility.

Grading Policy

Grades represent the level of mastery of skills or concepts learned. In general, grades will be a mixture of evaluative criteria such as tests, quizzes, homework, class assignments, classroom performance and other projects. Acceptance of late work is up to each teacher’s respective grading policy.

Grades correspond to the following percentages:

Health Services

Health aides are available throughout the school day in the event of student accident or illness. However, they are unable to diagnose illness or determine whether or not a child may return to school after a contagious disease. Parents must seek the advice of their doctor in these matters. Parents may be alerted from time to time to watch for specific symptoms as they may relate to a specific contagious disease; however, the school shall not, as a general rule, send home notices that any particular disease may be prevalent in a class or school except in the case of chicken pox or head lice. A comprehensive vision and hearing-screening program is conducted annually for specific grades.

Illness or Accident in School

In case of an accident at school, first aid is administered. Every effort is made to contact the parent or emergency person in the event of a serious injury. **PLEASE KEEP US INFORMED OF ANY TELEPHONE**
**NUMBER CHANGES.** The North Palos paramedics will be called in case of an extreme emergency or any injury. If a child becomes ill during the school day, every effort is made to contact the parent or emergency person and arrangements are made for the child to be taken home. If no one can be reached, the child is made as comfortable as possible and is sent home at dismissal time.

**Immunizations and Physicals**

The district excludes students for health examinations and immunization requirements after the October 15 exclusion date of the current school year, as required by Illinois law.

**Physical examinations** are required of students entering school for the first time and 6th grade.

**Dental examinations** are required of students in kindergarten, 2nd and 6th grades.

**Vision examinations** are required of students in kindergarten and those students who are entering school for the first time.

**Diabetes screenings** are required parts of each health examination.

**Lead screening** is a required part of the health examination for children age six years or younger prior to admission to a preschool or kindergarten.

**Immunizations** are required for diphtheria, pertussis, tetanus, polio, measles, rubella, mumps, Hemophilus influenzae type b (Hib), hepatitis B, and varicella (chicken pox) on a schedule as determined by the Illinois Department of Public Health.

Limited services to assist families are offered at the Worth Township Clinic located at 11601 South Pulaski Road in Alsip, Illinois. The Clinic’s phone number is 708/371-3393. Limited services to assist families residing west of Harlem Avenue are offered at the Palos Township Clinic located at 10802 South Roberts Road in Palos Hills, Illinois. The Clinic’s phone number is 708/598-2441.

Residents of Worth Township must bring identification that shows name and address (as an example, a utility bill). Residents of Palos Township must bring a photo ID and identification that show name and address (as an example, a utility bill).

**Lockers and Searches**

Students may use a locker and a desk. These are school property. No student has the right to enter any other student’s desk or locker. Desks and lockers along with a student’s own book bag and/or purse may be inspected by school authorities if there is reasonable suspicion that the contents threaten the safety, health, or welfare of students, or include stolen property or contraband. The school assumes no liability for lost or stolen items. Students should not bring valuables to school and should not leave money in lockers.

**Parent-Teacher Conferences**

Parent-teacher conferences are scheduled annually. Procedures for participation will be disseminated by each principal. Parents should feel free to contact teachers at any time they have a question or concern about their student’s progress.

**Pest and Lawn Care Management System**

School District 127 has instituted an integrated pest management system in all schools. The system manages pests inside and outside of the schools using professional services and building custodians. Parents may contact the building principal to be placed on a registry to receive written notification prior to the application of pesticides to grounds or property. The request from the parent should be in written
form. For information on professional services, contact the Business Manager/Chief School Business Official.

**Religious Holidays**

Students will be marked absent but excused when absence is due to a religious holiday. Absence for a religious reason, however, will not prevent a student from being eligible for a perfect attendance award. Tests and assignments can be made up when the child returns to school. A letter requesting the absence from the student’s parent/guardian must be submitted to the principal prior to the absence. The student will be given matching time to make up work.

**Report Cards**

Report cards are distributed on a quarterly basis on dates listed on the school calendar. Interim reports of progress are distributed mid-quarter.

Students who achieve a grade point average of 3.0 or above are placed on the honor roll each quarter.

Additionally, at Worth Junior High, students who achieve a grade point average of 3.6 or above are placed on the high honor roll.

**Safety**

Safety of District 127 students is supported through proper instruction both at home and at school. Parents should monitor their child’s route to school. Staff at each school will discuss safe routes to school with students. Through a cooperative plan with the local police department, adult crossing guards are stationed at the intersections that students use to cross highways. Parents are requested to instruct students to use these crossings and obey the directions of the guard. If the Worth Police report a student crossing in the wrong place, a school consequence will be issued. Designated crossings are:

Federal Title I money is used to fund after-school and summer-school programs, purchase instructional resources for the use of Title I students, and provide reading intervention teachers in the schools.

**Tips for Developing a Positive Relationship with Your Child's Teacher**

You’re getting ready to meet the teacher, and you know it's important to develop a positive relationship to benefit your child. The following tips from the Parenthood.com Newsletter were compiled from the National Parent Teacher Organization and the National Education Association:

- When you have concerns, call or write a note to your child's teacher requesting an appointment to discuss what's on your mind.
- To help you organize your thoughts, state to yourself what your reasons are for the meeting.
- Find out how much time the teacher is allotting for your meeting. If you think it’s not enough, let him or her know.
- Before the meeting takes place, tell your child you will be seeing the teacher. Reassure your child that you are meeting with the teacher in order to help him or her.
- Make a list of your questions, and don’t hesitate to ask them.
- Try to begin positively. Tell what progress you have noticed in your child, etc. Thank the teacher for meeting with you.

**Here are some general questions you might want to ask:**

- How much time should my child be spending on homework?
• How much should I be helping my child with homework?
• How will the school measure my child’s progress?
• Is my child participating in class?
• Does my child complete and turn in all of his or her homework?
• How is my child getting along with the other children?
• What kind of classroom rules do you have? How do you enforce them? Is my child following them?
We have read and understand the Code of Conduct for Worth Jr. High School.

Procedures and Code of Conduct

All of the procedures and regulations that follow have been carefully prepared to ensure the safety and well-being of the WJH student body, and to facilitate our primary goal of providing the best education possible for each student. The Code of Conduct will be in force for all students during the day and at any school sponsored activity or event.

Student Guidelines
Through the partnership of the home and school, the goal of the Worth Junior High School is to identify, develop, and encourage positive student behavior. Discipline is administered at Worth Junior High with the goal of holding students responsible for poor choices but in a manner that facilitates reflection, learning, and growth. Self-discipline and reflection are the main represent the main objectives of Worth Junior High School’s code of conduct. This includes the ability to understand rules and to use them independently and appropriately in various situations. Self-discipline and reflection improves self-concept, self-control, and personal effectiveness. Learning the value of self-discipline and reflection helps young people to learn and grow successfully both as students and as human beings.
We ask that parents familiarize themselves with the policies discussed in Worth Junior High School’s Code of Conduct and reinforce the importance of appropriate school behavior. It is only through the partnership of home and school that we can best serve our students in a manner that creates and maintains a school setting that helps all of our students to learn and grow successfully.

**Worth Junior High students and their parent(s) will be required to sign a Code of Conduct Agreement acknowledging that they have read and understand the Code of Conduct for Worth Junior High.**

**ADVISORY**

All teachers will supervise an advisory period. During this advisory session, teachers will visit with a smaller group of students. Teachers will discuss relevant topics to both staff and students. Topics such as respect, character, self-image, patriotism, pride, study habits, friendship, as well as others will be covered.

**AEROSOL SPRAYS/PERFUMES**

Aerosol sprays, body sprays, hairsprays, scented lotions, colognes, and perfumes are not allowed as they may cause a health risk for certain individuals.

**AGGRESSIVE BEHAVIOR**

Students are prohibited from engaging and/or encouraging any kind of aggressive behavior that does physical or emotional harm to a student or staff member. Prohibited conduct includes any use of violence, force, noise, coercion, threats, intimidation, fear, harassment, bullying, hazing, or other comparable conduct.

**ATTENDANCE**

Student academic success and progress at WJH are directly related to student attendance. When students are not in class, learning cannot take place. It is the student’s responsibility to attend class and be prepared. When the student must be absent, it is the parent’s responsibility to call the attendance hotline by 9:00 a.m. on the day of the absence. The phone number is 708-671-3999, and it is available 24 hours a day. When a student is absent from school for a full day, he/she cannot participate in athletic events or other school activities on the same day. State law and Board policy on truancy control will be used with habitual truants.

**Tardy Policy**

In order to maximize the instructional time, it is important for students to be in class on time. Tardiness is a class disruption and is grounds for disciplinary action. At Worth Junior
High, students are allowed to enter the building at 8:05 a.m. The first bell rings at 8:15 a.m. and students are expected to be in their rooms ready for class at 8:20 a.m. If a student is tardy on a frequent basis, he/she will be subject to disciplinary action, which may include parent contact, lunch detention, after school detention, or Saturday detention.

### BICYCLES

All bicycles are to be parked and locked up in our bicycle rack located on the southeast end of the building. It is the responsibility of the bicycle owner to supply a lock for his/her bicycle. The school is not responsible for lost or stolen bicycles. Bicycles are not to be ridden on school property or sidewalks. All safety rules and guidelines are to be followed. Traffic around the building before and after school hours is quite congested. Crossing guards have been stationed at selected corners. It is our expectation that bicycle riders follow the crossing guards' instructions. If compliance to safety codes and instructions become a problem, bicycle privileges may be revoked.

### CELLULAR PHONES

Students are not allowed to use a cellular telephone, video recording device, or other electronic device in any manner that disrupts the educational environment or violates the rights of others. All electronic devices must be kept off and out of site during the regular school day. Students may be allowed to have cell phones in their possession on specific occasions when they are granted permission to do so by either a teacher or school administrator. If a cell phone and/or electronic device is not turned off and out of site during the school day, a teacher may take the phone or device and send it to the office for safekeeping. On the first offense, a student may retrieve the phone or device after school. Any time thereafter, the phone or device must be retrieved by a parent.

### CHEATING

Students are prohibited from engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, and wrongfully obtaining test copies or scores.

A student who is subject to suspension or expulsion may be eligible for a transfer to an alternative school program.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension or expulsion, which is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may remove students from a classroom for disruptive behavior.

4. Take part in the tryout process.
5. Meet with academic eligibility on a periodic basis.
6. Meet with all school and conference requirements.
7. Comply with all coach's expectations, rules, and standards.
8. Must be in attendance at school on activity day/game day.

**Sportsmanship**

Athletic events are an educational opportunity. Our expectation is that players learn teamwork and sportsmanship. We also hope that athletes increase their self-esteem, earn a respect for one another, and have fun.

Good sportsmanship involves:

1. Setting a good example.
2. Respecting all decisions made by the officials.
3. Treating guests in a courteous manner.
4. Recognizing the efforts of other teams in a positive manner.
5. Acting in a respectful manner before, during, and after all games.
6. Representing our school and our community in a positive tone at home and while visiting other schools.

**Activity Attendance**

All students, parents, and relatives are encouraged to attend and support the team at all athletic events. It is a privilege to attend an athletic event and watch fellow students compete. It is a time for teachers, students, and parents to encourage young people to do their best.

Guidelines for athletic activities:

1. All travel arrangements should be made prior to the activity.
2. Students watching the game should encourage all athletes.
3. Students leaving the building will not be allowed to return.
4. No food, gum or drinks are allowed in the gymnasium.
5. Foot stomping on the bleachers is not allowed.
6. Negative remarks or insults will not be allowed.

7. Badgering or conversation with officials is not allowed.

8. Any distraction to players, fans, or fellow students will not be allowed.

9. Entering and leaving the gymnasium will only be allowed during regulatory breaks in play. While outside the gymnasium, students should not loiter or become a disturbance.

10. The use of cell phones, music players, cameras and other electronic devices may not be used in the gymnasium during the game.

If a person becomes a hindrance to the enjoyment of the competition, it will be at the discretion of school personnel to determine the revocation of activity attendance privileges.

**Exclusion from Conference Athletics, Extracurricular Activities, and/or Special Events**

The Principal or Assistant Principal can determine a student to be ineligible for trying out or participating in athletics, extracurricular activities, and/or special events. The student may be considered ineligible for participation in all of the categories mentioned if he/she has:

- An excessive amount of disciplinary referrals within a grading period.
- More than one suspension within a grading period.
- Failing in two or more subjects.

A student will be considered ineligible for the subsequent grading period. Continued misbehavior can result in exclusion from participation for the remainder of the school term, in accordance with the Board of Education policy.

**THEFT/VANDALISM**

Students are prohibited from stealing or attempting to steal, or causing or attempting to cause damage to, school property or another person’s personal property.

**WEAPONS**

Students are prohibited from using, possessing, controlling, or transferring a weapon, or any other object that can reasonably be considered, or looks like a weapon. Any item, such as a baseball bat, pipe, bottle, lock, stick, pencil, and pen, is considered to be a weapon if used or attempted to be used in a manner that may cause bodily harm.
This reference guide contains several Board of Education policies that directly affect students. They are presented in limited format. Full versions of the policies are available in each school’s main office and will eventually be placed on the district’s website. Parents and students are asked to please review these policies. If you have questions concerning the policies, please call the Superintendent’s Office at 671-3906.

Access to Student Records

The District shall grant access to student records as follows:

1. Neither the District nor any of its employees shall release, disclose, or grant access to information found in any student record except under the conditions set forth in the Illinois School Student Records Act.

2. The parent(s)/guardian(s) of a student under 18 years of age, or designee, shall be entitled to inspect and copy information in the child’s school records; a student less than 18 years old may inspect or copy information in the student’s permanent school record. Such requests shall be made in writing and directed to the Building Principal. Access to the records shall be granted within 15 days of the District’s receipt of such a request.

   Where the parents/guardians are divorced or separated, both shall be permitted to inspect and copy the student’s school records unless the District has actual notice of a court order indicating otherwise. The District shall send copies of the following to both parents/guardians at either’s request, unless the District has actual notice of a court order indicating otherwise:

   a. Academic progress reports or records;
   b. Health reports;
   c. Notices of parent-teacher conferences;
   d. School calendars distributed to parents/guardians; and
   e. Notices about open houses, graduations, and other major school events including pupil-parent/guardian interaction.

   When the student reaches 18 years of age, graduates from high school, marries, or enters military service all rights and privileges accorded to parent(s)/guardian(s) become exclusively those of the student.

3. The District may grant access to, or release information from, student records without parental/guardian consent or notification to District employees or officials or the Illinois State Board of Education, provided a current, demonstrable, educational or administrative need is shown. Access in such cases is limited to the satisfaction of that need.

Student Record Challenges

The parents/guardians may challenge the accuracy, relevancy, or propriety of their student’s school records. However, when the student’s school records are being forwarded to another school, no challenge may be made to grades or references to expulsions or out-of-school suspensions. The parents/guardians have the right to request a hearing.

Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student’s health and well-being. When a student’s licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District’s procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student’s self-administration
of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student’s parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

A student may possess an epinephrine auto-injector (Epi Pen®) and/or medication prescribed for asthma for immediate use at the student’s discretion, provided the student’s parent/guardian has completed and signed a "School Medication Authorization Form.” The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student’s self-administration of medication or epinephrine auto-injector or the storage of any medication by school personnel. A student’s parent/guardian must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student’s self-administration of an epinephrine auto-injector and/or medication, or the storage of any medication by school personnel.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

**Attendance and Truancy**

Policy 7:70

The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student’s absence. A valid cause for absence includes illness, observance of a religious holiday, death in the immediate family, family emergency, other situations beyond the control of the student, other circumstances that cause reasonable concern to the parent/guardian for the student's safety or health, or other reason as approved by the Superintendent or designee.

2. Has the purpose or effect of:

   a. Substantially interfering with a student’s educational environment;
b. Creating an intimidating, hostile, or offensive educational environment;

c. Depriving a student of educational aid, benefits, services, or treatment; or

d. Making submission to or rejection of such conduct the basis for academic decisions affecting a student.

The terms "intimidating," "hostile," and "offensive" include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, and spreading rumors related to a person's alleged sexual activities.

Students are encouraged to report claims or incidences of bullying, harassment, sexual harassment, or any other prohibited conduct first to the Building Principal or Assistant Building Principal, if applicable. Secondly, a student may report claims or incidents of bullying, harassment, sexual harassment or any other prohibited conduct to the District’s Complaint Managers. Students may choose to report to a person of the student's same sex. Complaints will be kept confidential to the extent possible given the need to investigate. Any District employee who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any District student who is
determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action, including but not limited to, suspension, consistent with the discipline policy. Any person making a knowingly false accusation regarding sexual harassment will likewise be subject to disciplinary action up to and including discharge, with regard to employees, or suspension, with regard to students.

**Code of Conduct for Extracurricular Activities**

This Code of Conduct applies to all school-sponsored activities that are neither part of an academic class nor otherwise carry credit or a grade. Sponsors shall create a roster of students who are members or participants in an extracurricular activity and maintain attendance records.

The goal of the extracurricular program is to provide opportunities for students to pursue interests and develop life skills beyond the classroom. An additional goal of the athletic program is to develop the physical skills of student athletes, which will allow them to compete to the best of their ability within the School Board policies and the by-laws of any association of which the school is a member.

Members must conduct themselves at all times, including after school and on days school is not in session, as good citizens and exemplars of their school - they must behave in ways that are consistent with good sportsmanship, leadership, and appropriate moral conduct. They are expected to demonstrate good citizenship and exemplary conduct in the classroom, in the community, and during all facets of the activity.

The Code of Conduct below describes the expectations and goals of the extracurricular and athletic programs. This Code does not contain a complete list of inappropriate behaviors for students in extracurricular activities and athletics. This Code of Conduct will be enforced 365 days a year, 24 hours a day. A student may be excluded from activities or competition while the school is conducting an investigation regarding that student’s conduct.

Students and their parents/guardians are encouraged to seek assistance from the school’s administration regarding alcohol or other drug problems. Family-referrals or self-referrals will be taken into consideration in determining consequences for Code of Conduct violations.

**Code of Conduct**

A student participating in an activity or athletic program will be subject to disciplinary action if he or she violates this Code of Conduct for Extracurricular Activities. Violations will be treated cumulatively, with disciplinary penalties increasing with subsequent violations.

**The student shall not:**

1. Violate the District’s policies or procedures on student discipline;
2. Use a beverage containing alcohol (except for religious purposes);
3. Use tobacco in any form;
4. Use, possess, buy, sell, barter, or distribute any illegal substance or paraphernalia;
5. Use, possess, buy, sell, barter, or distribute any object that is or could be considered a weapon or any item that is a “look alike” weapon. This prohibition does not prohibit legal use of weapons in cooking and in sports, such as archery, martial arts practice, target shooting, hunting, and skeet;
6. Attend a party or other gathering and/or ride in a vehicle where alcoholic beverages and/or controlled substances are being consumed by minors;
7. Act in an unsportsmanlike manner;
8. Vandalize or steal;
9. Haze other students;
10. Violate the written rules for the activity or sport;
11. Behave in a manner that is detrimental to the good of the group or school;
12. Be insubordinate or disrespectful toward the activity’s sponsors or team’s coaching staff;
13. Falsify any information contained on any permit or permission form required by the activity or sport.

The coach or extracurricular sponsor shall explain and discuss the Code of Conduct with all students participating in the activity prior to the beginning of the activity. Students and their parent(s) shall sign a copy of the Code of Conduct. Students shall not be eligible to participate in the activity prior to the beginning of the activity if a signed Code of Conduct is not submitted to the coach or extracurricular sponsor.

**Due Process Procedures**

1. The student should be advised of the disciplinary infraction with which he or she is being charged.
2. The student shall be entitled to a hearing before an appropriate administrator.
3. The student will be able to respond to any charges leveled against him or her.
4. The student may provide any additional information he or she wishes for the administrator to consider.
5. The administrator, with the help of other staff members if needed, may interview material witnesses or others with evidence concerning the case.
6. If the administrator finds, after reviewing the evidence, that the violation occurred, he or she will impose sanctions on the student, as follows:
   - Sanctions for violations will be based on the nature of the offense and the number of offenses, and may include suspension from all activities or sports:
     - A specified period of time or percentage of events, competitions, or practices
     - The remainder of the season or for the next season
     - The remainder of the student’s school year
7. The administrator will make a written report of his or her decision and rationale. The student may appeal the decision to the Building Principal.

All students remain subject to the Board’s student discipline policy and/or the school’s student handbook and the disciplinary measures listed in them.

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to:

1. Using, possessing, distributing, purchasing, or selling tobacco materials.

2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.

   a. Any illegal drug, controlled substance, or cannabis (including marijuana and hashish).
   
   b. Any anabolic steroid not administered under a physician’s care and supervision.

Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student’s use of asthma or other legally prescribed inhalant medications.
   
   e. "Look-alike" or counterfeit drugs, including a substance not containing an illegal drug or controlled substance, but one: (a) that a student believes to be, or represents to be, an illegal drug or controlled substance; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug or controlled substance.
   
   f. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.
Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

4. Using, possessing, controlling, or transferring a weapon in violation of the “weapons” section of this policy.

5. Using or possessing an electronic paging device. Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Unless otherwise banned under this policy or by the Building Principal, all electronic devices must be kept powered-off and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student’s individualized education program (IEP); or (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals.

6. Using or possessing a laser pointer unless under a staff member’s direct supervision and in the context of instruction.

7. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a District staff member’s request to stop, present school identification, or submit to a search.

8. Engaging in gross academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, and wrongfully obtaining test copies or scores.

9. Engaging in hazing or any kind of aggressive behavior that does physical or psychological harm to another or any urging of other students to engage in such conduct. 13. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.

14. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, and hazing.

15. For purposes of this policy, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student’s person; (b) contained in another item belonging to, or under the control of, the student, such as in the student’s clothing, backpack, or automobile; (c) in a school’s student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of early intervention and progressive discipline, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or physiological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board’s authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student’s parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

5. Suspension of bus riding privileges, provided that appropriate procedures are followed.

6. Expulsion from school and all school-sponsored activities and events for a definite time period not to exceed 2 calendar years, provided that the appropriate procedures are followed. An expelled student is prohibited from being on school grounds.

7. Notifying juvenile authorities or other law enforcement whenever the conduct involves illegal drugs (controlled substances), "look-alikes," alcohol, or weapons.

8. Notifying parents/guardians.
9. Temporary removal from the classroom.

10. In-school suspension for a period not to exceed 5 school days. The Building Principal or designee shall ensure that the student is properly supervised.

12. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure giving the student and/or parent/guardian the choice.

A student who is subject to suspension or expulsion may be eligible for a transfer to an alternative school program.

Corporal punishment shall not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

**Weapons**

A student who uses, possesses, controls, or transfers a weapon, or any other object that can reasonably be considered, or looks like, a weapon, shall be expelled for at least one calendar year, but no more than 2 calendar years. The Superintendent may modify the expulsion period and the Board may modify the Superintendent’s determination, on a case-by-case basis. A “weapon” means possession, use, control, or transfer of: (1) any gun, rifle, shotgun, a weapon as defined by Section 921 of Title 18, United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Act, or use of a weapon as defined in Section 24-1 of the Criminal Code; (2) any other object if used or attempted to be used to cause bodily harm, including but not limited to, knives, brass knuckles, billy clubs; or (3) “look-alikes” of any weapon as defined above. Any item, such as a baseball bat, pipe, bottle, lock, stick, pencil, and pen, is considered to be a weapon if used or attempted to be used to cause bodily harm.

**Required Notices**

A school staff member shall immediately notify the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, and any involved student’s parent/guardian. “School grounds” includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

**Delegation of Authority**

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, or Assistant Building Principal, is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct.
from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 days for safety reasons.

**Discipline: Students with Disabilities**

**Behavioral Interventions**

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The District will maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities. The Committee shall review the State Board of Education's guidelines on the use of behavioral interventions and use them as a non-binding reference. This policy and the behavioral intervention procedures shall be furnished to the parent(s)/guardian(s) of all students with individual education plans within 15 days after their adoption or amendment by the Board or at the time an individual education plan is first implemented for a student; all students shall be informed annually of the existence of this policy and the procedures. At the annual individualized education plan review, a copy of this policy shall be given to the parent(s) / guardian(s). The policy and procedures shall be explained. A copy of the procedures shall be available, upon request of the parent(s)/guardian(s).

**Discipline of Special Education Students**

The District shall comply with the provisions of the Individuals With Disabilities Education Act (IDEA) when disciplining students. No special education student shall be expelled if the student’s particular act of gross disobedience or misconduct is a manifestation of his or her disability. Any special education student whose gross disobedience or misconduct is not a manifestation of his or her disability may be expelled pursuant to the expulsion procedures, except that such disabled student shall continue to receive educational services as provided in the IDEA during such period of expulsion.

A special education student may be suspended for periods no more than 10 consecutive school days each in response to separate incidents of misconduct, regardless of whether the student’s gross disobedience or misconduct is a manifestation of his or her disabling condition, as long as the repeated removals do not constitute a pattern that amounts to a change in placement (considering factors such as the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another) and provided that such student receives educational services to the extent required by the IDEA during such removals.

Any special education student may be temporarily excluded from school by court order or by order of a duly appointed State of Illinois hearing officer changing the student’s placement to an appropriate interim alternative educational setting for up to 45 days if the District demonstrates that maintaining the student in his or her current placement is substantially likely to result in injury to the student or others.

A special education student who has carried a weapon to school or to a school function or who knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function may be removed from his or her current placement. Such a student shall be placed in an appropriate interim alternative educational setting for no more than 45 days in accordance with the IDEA. The length of time a student with a disability is placed in an alternative educational setting must be the same amount of time that a student without a disability would be subject to discipline.

**Drug-Free Schools**

Illegal drugs, tobacco, controlled substances, drug paraphernalia, and “look-alike” or counterfeit drugs are strictly prohibited anywhere on school property. See Policy 7:190 under the title “Discipline” for complete policy information.
Electronic Devices

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to: 1) using or possessing an electronic paging device. Using a cellular telephone, video recording device, personal digital assistant (PDA), or other electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Unless otherwise banned under this policy or by the Building Principal, all electronic devices must be kept powered-off and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student’s individualized education program (IEP); or (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals, 2) Using or possessing a laser pointer unless under a staff member’s direct supervision and in the context of instruction.

Equal Educational Opportunities

Equal educational and extracurricular opportunities shall be available for all students without regard to race, color, national origin, sex, religious beliefs, physical and mental handicap or disability, status as homeless, or actual or potential marital or parental status, including pregnancy. Further, the District will not knowingly enter into agreements with any entity or any individual that discriminates against students on the basis of sex or any other protected status, except that the District remains viewpoint neutral when granting access to school facilities under Board Policy 8:20, Community Use of School Facilities. Any student may file a discrimination complaint to the Superintendent.

Sex Equity

No student shall, based on sex, be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student may file a sex equity complaint to the Superintendent.

Fees Waiver

The Superintendent will recommend to the School Board a schedule of fees, if any, to be charged for the use of textbooks, consumable materials, extracurricular activities, and other school fees. Students must also pay for loss of or damage to school books or other school-owned materials.

Fees for textbooks and other instructional materials are waived for students who meet the eligibility criteria for fee waiver as described in this policy. In order that no student be denied educational services or academic credit due to the inability of parents/guardians to pay fees, the Superintendent will recommend to the Board which additional fees, if any, the District will waive for students who meet the eligibility criteria for fee waiver. Students receiving a fee waiver are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

The Superintendent shall ensure that applications for fee waivers are widely available and distributed according to State law and ISBE rule, and that provisions for assisting parents/guardians in completing the application are available.

A student shall be eligible for a fee waiver when the student currently lives in a household that meets the same income guidelines, with the same limits based on household size, that are used for the federal free meals program.

Within 30 calendar days after the receipt of a waiver request, the Superintendent or designee shall mail a notice to the parent/guardian whenever a waiver request is denied. The denial notice shall include: (1) the reason for the denial, (2) the process and timelines for making an appeal, and (3) a statement that the parent/guardian may reapply for a waiver any time during the school year if circumstances change. If the denial is appealed, the District shall follow the procedures for the resolution of appeals as provided in the Illinois State Board of Education rule on waiver of fees.
Grading and Promotion Policy 6:280

The administration and professional staff shall establish a system of grading and reporting academic achievement to students and their parents and guardians. The decision to promote a student to the next grade level shall be based on successful completion of the curriculum, attendance, and performance based on standardized testing. A student shall not be promoted based upon age or any other social reason not related to academic performance. The administration, teacher and parent shall determine remedial assistance for a student who is not promoted. When retention is recommended by the teacher and administration, the final decision shall rest with the Superintendent.

Access to Electronic Networks

Electronic networks, including the Internet, are a part of the District's instructional program in order to promote educational excellence by facilitating resource sharing, innovation, and communication. The Superintendent or designee shall develop an implementation plan for this policy and appoint a system administrator.

The School District is not responsible for any information that may be lost, damaged, or unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum

The use of the District’s electronic networks shall (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library-media center materials. Staff members may, consistent with the Superintendent’s implementation plan, use the Internet throughout the curriculum.

The District’s electronic network is part of the curriculum and is not a public forum for general use.

Acceptable Use

All use of the District’s electronic network must be (1) in support of education and/or research, and be in furtherance of the School Board’s stated goal, or (2) for a legitimate school business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any material that is stored, transmitted, or received via the District's electronic network or District computers. General rules for behavior and communications apply when using electronic networks. The District’s Authorization for Electronic Network Access contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

Each District computer with Internet access shall have a filtering device that blocks entry to visual depictions that are (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent or system administrator.
administrator. The Superintendent or designee shall include measures in this policy’s implementation plan to address the following:

1. Limiting student access to inappropriate matter as well as restricting access to harmful materials;
2. Student safety and security when using electronic communications;
3. Limiting unauthorized access, including “hacking” and other unlawful activities; and
4. Limiting unauthorized disclosure, use, and dissemination of personal identification information.

Authorization for Electronic Network Access

Each staff member must sign the District’s Authorization for Electronic Network Access as a condition for using the District’s electronic network. Each student and his or her parent(s)/guardian(s) must sign the Authorization before being granted unsupervised use.

All users of the District’s computers and means of Internet access shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

The failure of any student or staff member to follow the terms of the Authorization for Electronic Network Access, or this policy, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

All use of electronic networks shall be consistent with the District’s goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Terms and Conditions

1. Acceptable Use - Access to the District’s electronic networks must be (a) for the purpose of education or research, and be consistent with the educational objectives of the District, or (b) for legitimate business use.

2. Privileges - The use of the District’s electronic networks is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time; his or her decision is final.

3. Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:
   a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any U.S. or State law;
   b. Unauthorized downloading of software, regardless of whether it is copyrighted or de-virused;
   c. Downloading copyrighted material for other than personal use;
   d. Using the network for private financial or commercial gain;
   e. Wastefully using resources, such as file space;
   f. Hacking or gaining unauthorized access to files, resources, or entities;
   g. Invading the privacy of individuals, which includes the unauthorized disclosure, dissemination, and use of information about anyone that is of a personal nature;
   h. Using another user’s account or password;
   i. Posting material authorized or created by another without his/her consent;
   j. Posting anonymous messages;
   k. Using the network for commercial or private advertising;
   l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing, or illegal material; and
m. Using the network while access privileges are suspended or revoked.

4. Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:
   a. Be polite. Do not become abusive in messages to others.
   b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
   c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
   d. Recognize that e-mail is not private. People who operate the system have access to all e-mail. Messages relating to or in support of illegal activities may be reported to the authorities.
   e. Do not use the network in any way that would disrupt its use by other users.
   f. Consider all communications and information accessible via the network to be private property.

5. No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user’s errors or omissions. Use of any information obtained via the Internet is at the user’s own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

6. Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

7. Security - Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual’s account without written permission from that individual. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

8. Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

9. Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

10. Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the Web or on District Web sites or file servers without explicit written permission.
   a. For each re-publication (on a Web site or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.
   b. Students and staff engaged in producing Web pages must provide library media specialists with mail or hard copy permissions before the Web pages are published. Printed evidence of the status of “public domain” documents must be provided.
   c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the Web site displaying the material may not be considered a source of permission.
   d. The “fair use” rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
e. Student work may only be published if there is written permission from both the parent/guardian and student.

11. Use of Electronic Mail

a. The District’s electronic mail system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides e-mail to aid students and staff members in fulfilling their duties and responsibilities, and as an education tool.

b. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s user. Unauthorized access by any student or staff member to a mail account is strictly prohibited.

c. Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an e-mail message that would be inappropriate in a letter or memorandum.

d. Electronic messages transmitted via the School District’s Internet gateway carry with them an identification of the user’s Internet “domain.” This domain is a registered name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of this School District. Users will be held personally responsible for the content of any and all mail messages transmitted to external recipients.

e. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message’s authenticity and the nature of the file so transmitted.

f. Use of the School District’s electronic mail system constitutes consent to these regulations.

Internet Safety

1. Internet access is limited to only those “acceptable uses” as detailed in these procedures. Internet safety is almost assured if users will not engage in “unacceptable uses,” as detailed in these procedures, and otherwise follow these procedures.

2. Staff members shall supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in these procedures.

3. Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and as determined by the Superintendent or designee.

4. The system administrator and Building Principals shall monitor student Internet access.

Parents Right to Know

A new federal law called the No Child Left Behind Act requires the school district to let parents know that they may ask for information about the professional qualifications of any teacher that is instructing their child. Parents may request information regarding the following:

☐ Whether or not your child’s teacher has met state certification requirements;

☐ Whether or not your child’s teacher is teaching under emergency or provisional status;

☐ The bachelor’s degree major of your child’s teacher, any other certification or degrees held by the teacher, and the subject areas of the certification or degrees; and

☐ Whether your child is provided services by teacher aides/paraprofessionals and, if so, their qualifications.

Requests must be made in writing to the Superintendent’s office in the Administrative Center. Parents
will receive a response to their request for information within 10 business days.

Prevention of and Response to Bullying, Intimidation and Harassment

Bullying, intimidation, and harassment diminish a student’s ability to learn and a school’s ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require staff members to monitor any nonschool-related activity, function, or program.

Definitions from Section 27-23.7 of the School Code (105 ILCS 5/27-23.7)

Bullying includes cyberbullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student’s or students’ person or property;
2. Causing a substantially detrimental effect on the student’s or students’ physical or mental health;
3. Substantially interfering with the student’s or students’ academic performance; or
4. Substantially interfering with the student’s or students’ ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Restorative measures means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to
be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students’ behavioral health needs in order to keep students in school.

*School personnel* means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

**Bullying Prevention and Response Plan**

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District’s goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the requirements listed below; each numbered requirement, 1-12, corresponds with the same number in the list of required policy components in 105 ILCS 5/27-23.7(b) 1-12.

1. Using the definition of *bullying* as provided in this policy, the Superintendent or designee shall emphasize to the school community that: (a) the District prohibits bullying, and (b) all students should conduct themselves with a proper regard for the rights and welfare of other students. This may include a process for commending or acknowledging students for demonstrating appropriate behavior.

2. Bullying is contrary to State law and the policy of this District. However, nothing in the District’s bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.

3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The District named officials and all staff members are available for help with a bully or to make a report about bullying. Anonymous reports are also accepted.

4. Consistent with federal and State laws and rules governing student privacy rights, the Superintendent or designee shall promptly inform the parent(s)/guardian(s) of every student involved in an alleged incident of bullying and discuss, as appropriate, the availability of social
work services, counseling, school psychological services, other interventions, and restorative measures.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
   a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.
   b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
   c. Notifying the Building Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.
   d. Consistent with federal and State laws and rules governing student privacy rights, providing parents/guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the Building Principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

6. The Superintendent or designee shall use interventions to address bullying, that may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

7. A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student’s act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

8. A student will not be punished for reporting bullying or supplying information, even if the District’s investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

9. The District’s bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.

10. The Superintendent or designee shall post this policy on the District’s website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired), and must also be provided periodically throughout the school year to students and faculty.

11. The Superintendent or designee shall assist the Board with its evaluation and assessment of this policy’s outcomes and effectiveness. This process shall include, without limitation:
   a. The frequency of victimization;
   b. Student, staff, and family observations of safety at a school;
   c. Identification of areas of a school where bullying occurs;
   d. The types of bullying utilized; and
   e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. The Superintendent or designee must post the information developed as a result of the policy evaluation on the District’s website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students.

12. The Superintendent or designee shall fully implement the Board policies. The District’s bullying prevention plan must be consistent with other Board policies.
Residency

Resident Students

Only students who are residents of the District may attend a District school without a tuition charge, except as otherwise provided below or in State law. A student’s residence is the same as the person who has legal custody of the student.

A person asserting legal custody over a student, who is not the child’s natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. In addition, the child’s natural or adoptive parent, if available, shall complete a signed statement or Power of Attorney stating: (a) the role and responsibility of the person with whom their child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

When a student’s change of residence is due to the military service obligation of the student’s legal custodian, the student’s residence is deemed to be unchanged for the duration of the custodian’s military service obligation if the student’s custodian made a written request. The District, however, is not responsible for the student’s transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within 60 days after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child’s parent/guardian is unable to produce records normally required to establish residency. Board policy 6:140, Education of Homeless Children, and its implementing administrative procedure, govern the enrollment of homeless children.

Challenging a Student’s Residence Status

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a non-resident of the District for whom tuition is required to be charged, he or she on behalf of the Board shall notify the person who enrolled the student of the tuition amount that is due. The notice shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by The School Code.

Search and Seizure

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. “School authorities” includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student’s personal effects in the student’s possession
(such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District’s student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student’s age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. **Outside the view of others, including students,**
2. **In the presence of a school administrator or adult witness,** and
3. **By a certificated employee or liaison police officer of the same sex as the student.**

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

**Seizure of Property**

If a search produces evidence that the student has violated or is violating either the law or the District’s policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

**Notification Regarding Student Accounts or Profiles on Social Networking Websites**

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:

1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student’s account or profile on a social networking website.
2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student’s account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

**Student Records**

School student records are confidential and information from them shall not be released other than as provided by law. Any record that contains personally identifiable information or other information that would link the document to an individual student is a school student record if maintained by the District, except: (1) records that are kept in the sole possession of a school staff member, are destroyed not later than the student’s graduation or permanent withdrawal, and are not accessible or revealed to any other person except a temporary substitute teacher, and (2) records kept by law enforcement officials working in the school.

State and federal law grants students and parents/guardians certain rights, including the right to inspect, copy, and challenge school records. The information contained in school student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but a parent/guardian shall have the right to object to the release of information regarding his or her child. However, the District will comply with an ex parte court order requiring it to permit the U.S. Attorney General or designee to have access to a student’s school records without notice to, or the consent of, the student’s parent/guardian.

The Superintendent shall implement this policy with administrative procedures. The Superintendent shall also designate a records custodian who shall maintain student records. The Superintendent or designee shall inform staff members of this policy, and shall inform students and their parents/guardians of it, as well as their rights regarding student school records.
Student Records Defined

A student record is any record that contains personally identifiable information or other information that would link the document to an individual student if it is maintained by the District, except records kept: (1) in a school staff member’s sole possession destroyed not later than the student’s graduation or permanent withdrawal, and not accessible or revealed to any other person except a temporary substitute teacher, or (2) by law enforcement officials working in the school.

Maintenance of School Student Records

The District maintains two types of school records for each student: a permanent record and a temporary record.

Information in the temporary record will indicate authorship and the date it was added to the record. The District will maintain the student’s temporary record for at least 5 years after the student transferred, graduated, or permanently withdrew. Temporary records that may be of assistance to a student with disabilities who graduated or permanently withdraws, may, after 5 years, be transferred to the parent(s)/guardian(s) or to the student, if the student has succeeded to the rights of the parent(s)/guardian(s).

The Building Principal is the records custodian for his or her respective building and is responsible for the maintenance, care, and security of a student’s permanent or temporary records.
